

LIMA PHONE DIRECTORY

We are aware our automated phone line is challenging. As our offices provide multiple specialties and ancillary services, listing every option creates a tedious phone listing. An operator is available, but cannot manage the hundreds of incoming daily calls.

In an effort to reduce your frustration, please use this directory to better navigate the automated system. If you know the exact four digit extension of the person you need, you can enter that at any time.

As a reminder, true medical emergencies should call 911 immediately
